Presents
Workshop on

Cloud Big Data Analytics with Microsoft Azure Machine Learning and Power BI Tools

Shri. Aravindan G, Software Engineering Lead
Microsoft, Hyderabad

Abstract

In recent times, data analytics has become a driving force in success of many businesses as they provide deep insights that help in efficient decision-making. With the continuous growth of data resulting in Big data, new tools than can help in extracting patterns in an automated manner has become the industry needs. Microsoft power BI offers online services that helps in visualizing data, share discoveries and collaborate in an intuitive way. Further, from power BI one can interface with Microsoft Azure machine learning, which is a simple, scalable, cutting edge fully managed cloud service, facilitating automated analysis of Big data on cloud. This workshop equips researchers, young professionals and students with a firsthand experience on innovative Microsoft technologies for mining Big data.

Date:

16 April 2016

Time:

09:30 to 15:30

Location:

VNRVJIET, Bachupally
Hyderabad,
