

Students design Formula car, bag jobs

Final year engineering students of VNR Vignana Jyothi Institute of Engineering and Technology designed a Formula Car, which was the only Formula Car qualified to participate in the Formula Society of Automotive Engineers (FASE), an international competition on designed Formula Cars in Japan.

The Mechanical and Electrical department students, Surya Panikrishna, Mukul, Dharanidhar, Vinay, Vijay and Ashok designed the car with the support of the teachers and they presented technical report on their design and participated in Static and Dynamic events.

The participant students who went to Japan with the vehicle made excellent presentation to the Honda Team on their learning.

Test drive

The Honda R&D India team with their Head Hidehiko Numata visited the college, inspected the design and appreciated the student's involvement in the
