Computer Science Engineering Association (CSEA)

The Association of Computer Science Engineering students are the technical and non-technical association of the Department of Computer Science and Engineering. It was established in the year 1997. It started with 195 members including both student and faculty members in 1997. It is a union of the Undergraduate students (B.Tech - Computer Science and Engineering), Post Graduate students (M.Tech – Computer Science Engineering (CSE), Software Engineering (SE)), and faculty members.

The activities are executed by students and provide opportunity to all students of CSE to conduct various technical, non-technical, social events including Induction, fresher' s day, farewell day, women' s day etc. For winner participants are recognized by presenting awards and certificates at the Fresher' s or Farewell like Best Outgoing Student Award and Best Project Awards. Also CSE Association took oath to share the same spirit in organizing the events for external people through Outreach programs. Fresher' s or as we like to call it Login, is conducted by the Junior Year students for the sophomores as an official induction into the association. It is an informative-cum fun event which is one of the most awaited events every year. The farewell, better known as Reboot is the time of the year when the junior students bid farewell to the seniors. The event involves an official Prize distribution ceremony and several informal events. The various Student Awards instituted by the association on this solemn occasion are:

The Alumni continue to contribute to this forum by guiding their juniors on academics, placement and career. This association provides the space to develop their leadership skills, expose and share their skills. Overall, the forum provides a tight bond amongst themselves and with the department.

Major Programmes Organized by the Association in the recent past:

- The department of Computer Science and Engineering conducted International Women' s Day on 08-03-2019 for all Lady Faculties.
- The department of Computer Science and Engineering conducted a Non-Technical program which include Questionnaire, Advertisement, and Treasure hunt on 26-02- 2019 for First year students.
- The department of Computer Science and Engineering conducted Fresher' s Day on 27-08-2018 for First year students.
- The department of Computer Science and Engineering conducted Matrixing program on 27-08-2018 for all year students for effective interaction among them to share knowledge and skills.
- The department of Computer Science and Engineering conducted Outreach program on 27-08-2018 for all CSEA and CSI team. We went to Machunoor village, Jarasangam Mandal, Sangareedy for conducting “ **Smart Resource Utilization and Menstrual Hygiene Management**” .

Out Reach Program - Report

The student and faculty coordinators of CSE Association have conducted a Social Outreach Program through which we had an interaction and a teaching session with the elementary standard students of a government school.

The event's objective was to spend a day with the students by teaching them general knowledge and co-curricular activities. We have spent the pre-lunch session with students who were grouped according to the standard they were studying in, and were made to participate in different events conducted, ranging from Painting to Computer basics.

The Event was conducted by 2nd and 3rd year students of CSEA with the close Guidance of the faculty coordinator. We have conducted it in the Government School situated in the Pragathinagar colony, Hyderabad. The CSEA team was in the team from 9:00 AM to 1:00 PM on 3rd April 2019.

This outreach program was very enlightening for us. It was amazing to interact with all the young minds. All of the students were highly enthusiastic and curious which has fueled us and made the program a big success. Students kept asking for more questions and activities which has proved that this is a great initiative.
