Scintillate – The Photography Club

Scintillate is the Photography club of VNRVJIET which aims at capturing the moment that one would like to cherish for the rest of their life. The club not just focuses on appreciating the talent which is already present but also encourages people who have a vision on identifying beauty within small things. We not just provide an environment for students to show their skills but they are there for the students who want to learn, by conducting various photography workshops every year. There are various departments in this club which includes photography, videography, editing and event organising, etc. It's an amazing platform for one to showcase their talent and vision.
