

Career Vision Session on “Value of Human Life” - Report

Theme: **Inspirational Talk**

Speaker: **Mr. Nitai Das, Mr. Srikant (ISKON Members)**

Venue: **B006**

Audience: **I BTECH CSE 4 students**

Time: **12:30 pm to 1:40 pm**

Description:

The talk was mainly based on the topic-“Value of Human Life”. The speaker started the talk by comparing Human beings with animals on following grounds- eating, sleeping, mating and defending and emphasized on the purpose of human life. He further extended and discussed the importance of soul by adding a story of a parrot and a golden cage wherein the owner polishes the cage but doesn't feed parrot anytime, consequently the parrot died. Here parrot is the soul as human being does everything for the comfort of their body but nothing for soul. As a result, even a person with all the comforts is stressed and unhappy. Even the crime rate is also increasing day by day. At last he ended by saying that the solution of all these problems is to understand the actual purpose of human creation and then leading meaningful lives.

Career Vision Session on TEDTalk by Anthony Goldbloom - Report

Theme: TED

Speaker: Anthony Goldbloom (online).

Venue: B008

Audience: 1 BTECH CSE 3 students

Time: 3:00 pm to 3:50 pm

Description:

The talk was mainly based on the topic-“The jobs we’ll lose to machines and the ones we won’t”. The speaker said that because of machine learning there is dramatic advancement in machine technology due to which they are becoming threat to our jobs mainly when it comes to high volume and frequent tasks. The speaker also added that machine actually learns from past experiences (i.e. machine learning) due to which they are unable to solve any new unseen problem while on the other hand humans can easily take decision based on their intellect. Many researches are going on in the field of machine learning to make machine as intelligent as human beings. Hence he concluded his talk by saying that machine cannot compete with humans when it comes to tackling with novel situations. So jobs like building business strategy, developing marketing campaigns etc. are still done by human beings and not machines.

Career Vision Session on Technical Dumbsraaz by 3CSE1 - Report

Theme: Skills and Euphoria

Speaker: J. Surya Teja and V. Srinivas (3CSE1 Students).

Venue: B008

Audience: I BTECH CSE 3 students

Time: 3:00 pm to 3:50 pm

Description:

The session was mainly based on the topic-“Skills and Euphoria – VNR Theme” wherein the students of 3CSE1 have played Technical Dumbsraaz with 1CSE3 students. Two groups of boys and girls were formed. The game was about enacting over a technical word like Facebook, Twitter etc. to express it in dumb state. The group member has to express this word to their group-mates by enacting over it, without speaking. The game was really entertaining. The first years were actively participating in it. One after the other students enacted over different words and eventually the girls’ team won the game.
