Department of AIML & IOT Professional bodies

Professional bodies provide platforms that enable students to develop their professional skills, so students are encouraged to join them as members. Membership in professional organizations is important and necessary as we strive to stay informed of current developments in our fields of expertise. Faculty and students are having memberships in different professional bodies.

As part of the Institute, students are also encouraged to participate actively in various clubs, which strengthen Team Spirit, wholesome personalities, interpersonal communication, and others such attributes.
