ABOUT VNRVJIET

VNR Vignana Jyothi Institute of Engineering and Technology, an autonomous institute, sponsored by Vignana Jyothi Society began functioning from the academic year 1995-96. The society was started with an aspiration to provide purposeful and quality education. The institute is located on a campus of 7.33 Hectares as one of the best engineering collages in Hyderabad. VNRVJIET is always aiming to provide all the required facilities, best of infrastructure and is known to produce quality engineers by placing an emphasis on all-round development. VNRVJIET offers B.Tech, M.Tech and Polytechnic courses.

ABOUT CSI

CSI was formed in 1965 by few computer professionals. Today it has 72 chapters, 511 student chapters and more than 1,00,000 members in it, all over India. The wide spectrum of members is committed to advancement and practice of computer engineering and technology and related arts and scientists.

ABOUT CZINE

CSI of VNRVJIET launches a magazine called CZINE with all technical updates and other information that can benifit its members. This annual magazine covers complete details of various activities held during the academic year and also articles given by students.

MESSAGES

Dr. C D Naidu (PRINCIPAL)
The efforts made by CSI in molding all the technical articles and best projects regarding the technological advancements into their annual newsletter CZINE, 2022 is noteworthy. I am confident that the CSI will make themselves stronger day by day, adding a new leaf to the grandeur of the college.

Dr. S. Nagini (Professor, HOD, CSE dept.)
It gives me great contentment to note that CSI is launching its Annual Newsletter CZINE. This magazine helps the students to bring out their inbred talents, to tweak their soft skills and to unveil the contemporary trends in this field to them. I wish the student chapter a grand success in all their future ventures.

Mr. N Sandeep Chaitanya (Faculty Co-ordinator)
CSI encourages students to channelize their potential in pursuit of excellence. CSI helps the students to polish themselves as an individual to work in unity and to sculpt their inner leader to take change of things in pursuit of a common goal.

Mr. Ch Sri Sumanth (Faculty Co-ordinator)
The talents, the skills and abilities of each student need to be identified, nurtured and encouraged so that he/she is able to reach greater heights and CSI is just the platform to do that. CSI inculcates the right amount of confidence in a student for them to achieve their targets and it is the most strengthening power in molding the future of students.

MESSAGES

Mr. Bathini Veerasai (Chairman CSI, 2021-22)
It is with my immense pleasure to say that I was a member of CSI. The exposure I received through CSI have always helped me figure out a way whenever I was pushed to the wall. I could say that the work I have done at CSI will always be a treasure to me as there was a lot that I was able to learn here.

Mr.Vanguru Sravan Kumar(General Secretary CSI, 2021-22)
I always feel, joining CSI was the best decision I have ever taken. I had learnt many things such as leadership skills, team work, communication skills. I strongly feel that this helped me build good network in college and would help me build my career too. Lastly, I don't even dare to imagine my life in VNR without CSI!

Ms. Vaishnavi Yalamareddy (Treasurer CSI, 2021-22)
Engineering would have been incomplete without CSI. CSI plays an important role in shaping the personality of a student and gave me many opportunities to develop these skills. CSI gave me a platform to put all my thoughts into action. This is the support one needs in Engineering to explore and gain knowledge

Ms. Indu Gurrala (President CSI, 2021-22)
CSI has always been an important part in my engineering life. It taught me responsibility, helped me improve my communication skills and social skills. I was able to overcome stage fear. As we had chance to organize many events, my managing skills also improved. It also gave me an extended family. Hoping that the legacy continues forever.
