INDUSTRIAL VISITS

L & T Metro

Industrial Visit to L & T Metro, Uppal, Hyderabad for I B.Tech. students on 02nd August 2022.

Insights

- The metro system is operated using CBTC (Communication Based Train Control), one of a kind in the entire world. It is enhanced by ATS (Automatic train simulation system). This is a great advancement from the Fixed Block system, which is the first technology in the railways. It is the system that uses radio communication to transfer accurate train control information.
- The OCC (Operation Control Center) is responsible for the communication between the driver and the train which is done through the wi-fi signals.
- An incident management room takes care of the emergency cases too. Imported from Korea by Hyundai Rotem, this train consists of 3 cars - 2 driving and 1 trailer car, with the wheels tapered and travels in three corridors. The working is based on the induction motor and controlled by a microprocessor.
- The Pantographs draw power from OH line. When 32 kV is supplied using step up and step down transformers it is used to provide the traction and auxiliary power. This is supplied to the pantographs which then provide power to the train to move. On power failure
- The revenue generation comes from Passenger fares (50%), Transit oriented development (45%) and Advertisement and communication (5%). This transport is extremely cost effective and accessible for the public and learning more about it during the trip was enlightening.

Out of the mountain of despair, a stone of hope.

-Martin Luther King Jr.

DILEMMA OF LOVE

If it isn't for love, we see people
Slamming their doors, crying out their grief
Shouting their mediocre lives, overlooking the bugs
Telling each other off before taking a step
All this knowing that no hardship can set them apart

If it isn't for love, we see people
Never letting the distance decide limits betwixt them
Assuring to be happy, atleast acting it out
Never share their despair to prevent hassel
All this knowing that a single smile can always keep them together

These symmetries of love
sour and sweet, caring and cruel
flexible and brittle, hard and soft
can they be deduced to pure and evil?
In this loop of dilemma
who are we to judge if it's all just for love.

The important thing is not to stop questioning. Curiosity has its own reason for existence.

ఒంటరితనం

• వయసుతో పాటు తరిగిపోయే అందం కోసం,
మంచి మనసున్న స్నేహితులను వదులుకోకు

• కాలంతో పాటు కరిగిపోయే ఆస్తుల కోసం,
రక్త సంబంధీకులను వదులుకోకు

• అశాశ్వతమైన ఆడంబర జీవితం కోసం,
జన్మనిచ్చిన తల్లిదండ్రులను వదులుకోకు

• అలా వదిలేస్తే అన్నీ ఉన్నా నువ్వు ఒంటరివాడివే నేస్తమా !

• అసలు ఏమీ లేని వాడు కాదు ఒంటరివాడు అంటే,

అన్నీ ఉన్నా అవి వదులుకున్న వాడు అసలైన ఒంటరివాడు

• అలా అన్నీ వదులుకుని ఒంటరి అయ్యాక
అప్పుడు ఏదో ఒక సాయంత్రం వేళ అనిపిస్తుంది
ఒంటరితనం ఎంత నరకమో

• అందుకే ఒంటరిగా ఉండి బాధ పడటం కన్నా
అందరితో కలిసి మెలిసి, కొత్త బంధాలను, బంధుత్వాలను కలుపుకొని సంతోషంగా ఉండటం మిన్న !

• ఎందుకంటే

అక్షరాలు కూడా ఒంటరే,
కానీ జత కలిపితేనే పదాలవుతాయి!!
భావాన్ని అందిస్తేనే కవితలవుతాయి!!!

• అలాగే

మనుషులు కూడా ఒంటరే కాని కుటుంబం, బంధాలు, బంధుత్వాలు ఒంటరితనాన్ని దూరం చేస్తాయి!!
ప్రేమ, ఆప్యాయతలను పెంచుతాయి!!!

• అందుకే ఆలోచించి కాదు అనుభవంతో చెబుతున్నా ... ఒంటరితనాన్ని నీ జీవితంలోకి ఎప్పుడూ ఆహ్వానించకు నేస్తం !
