#### Application Details

APPLICATION NUMBER	202141044509
APPLICATION TYPE	ORDINARY APPLICATION
DATE OF FILING	01/10/2021
APPLICANT NAME	1 . Vallurupalli Nageswara Rao Vignana Jyothi Institute of Engineering &Technology 2 . Vikram University, Ujjain
TITLE OF INVENTION	GPS AND ENCRYPTION BASED MULTI-CHECK AUTHENTICATION PROCESS FOR PREVENTING FRAUD TRANSACTION
FIELD OF INVENTION	COMPUTER SCIENCE
E-MAIL (As Per Record)	soni.mukesh15@gmail.com
ADDITIONAL-EMAIL (As Per Record)	
E-MAIL (UPDATED Online)	
PRIORITY DATE	
REQUEST FOR EXAMINATION DATE	--
PUBLICATION DATE (U/S 11A)	08/10/2021

#### Application Status

APPLICATION STATUS	<b>Awaiting Request for Examination</b>

(57) Abstract :

The present invention relates to a GPS and encryption based multi-check authentication process for preventing fraud transaction. As the technology is developing in the field of e-commerce in India, Indians using it on the same lines is also increasing. But due to lack of complete knowledge of technology, cases of fraud in this are also increasing at the same pace. To prevent misuse of technology by trained and non-socialist persons and avoid fraud in e-commerce, we have designed a multi-technology based multilevel authenticity process. The proposed process will reduce the probability of fraud in the field of e-commerce with the help of GPS, cryptography, and mobile technology. Also, it will help in establishing trust in people for digital transactions.
